SIZE CHARTS

MEASUREMENT GUIDE

Neck

- To measure their collar, wrap the tape measure gently around the base of their neck.
- Put two fingers between the tape measure and their skin while you do this; this will ensure a more comfortable fit.
- Choose boys' school shirts based on this measurement but do also check the chest measurement of the garment as well to make sure these two areas both fit.
- It's better to have a comfortable, fitted chest and a slightly looser collar than a well-fitted collar and a chest that's straining at the seams.

Chest

- Measure around the fullest part of the chest and shoulder blades by dropping the arms loosely to the sides.

Waist

- Wearing a shirt put the measuring tape around the waist by finding the narrowest part of their torso.
- It is also important to measure the waist at the point where they will actually wear their trousers. Some boys wear them higher or lower than others.
- Make sure the tape is snug, but you should be able to put your index finger inside the tape.

Hip

- Wearing a shirt, measure the widest part of the hip.
- Make sure the tape is snug, but you should be able to put your index finger inside the tape.
- Make sure the tape is always straight.

Inseam

- Measure from the top of the inner thigh to the ground or where the hem is to finish without shoes.

Outseam

- For trousers, measure from the waist along the outside of the leg to the ground or where the hem is to finish without shoes. For shorts, measure from the waist along the outside of the leg to the bottom of where the hem is to finish at the knee.
